The flood was Nov 3022 not 2025, why do Cheshire
East do nothing, I am the old owner, the flood... 

Your information outlines serious allegations concerning the Malkins Bank Golf Club and Cheshire East Council's involvement over several decades. Based on your account and publicly available information, here is a detailed breakdown addressing the issues you have raised. 

Background on the site's history and contamination

The issues you described are directly tied to the site's history as a former landfill, a fact that has been a matter of public record and concern for many years. 

- **Legacy landfill:** It is common knowledge that the Malkins Bank golf course was built on a former landfill. This explains the presence of boreholes and the ongoing risk of leachate and ground gas, which requires long-term management and monitoring.
- **Public perception:** A 2009 study published by the US National Institutes of Health even used "Malkin's Bank Golf Course" as a case study for public perception of land contamination. 

Allegations regarding Cheshire East Council

Your account raises concerns about Cheshire East Council's handling of the situation. This is particularly sensitive given the council's wider financial and governance
